

Call for Openness

How
you can get involved

Share information about SUDEP and epilepsy risks with anyone involved in the care of people with epilepsy (GPs, Hospital staff, families, support groups etc).

Information and leaflets can be found on www.sudep.org and by contacting info@sudep.org (referencing the Call for Openness campaign)

See our 'Resources' page in the Campaigning section of www.sudep.org

Hold an information stand in your local area to share information about epilepsy risks and SUDEP - raising awareness of the Call for Openness campaign.

Don't forget to let us know how you are getting involved & who you are contacting.

Do you or does someone you know have epilepsy? Learn more about your/their specific level of risk by speaking to your GP, Epilepsy Specialist Nurse or Specialist. They can help you assess your risks and give advice as to how you can reduce them.

See our 'Research & Education' section for the latest data on SUDEP & epilepsy risk.

Raise awareness via social media - use the hashtags #Call4Openness #SUDEP & #Epilepsy

Why not share our Call for Openness & SUDEP infographics too?

Encourage Health professionals to develop their knowledge on SUDEP & epilepsy risks.

More information can be found on our 'information' & 'research & education' pages. An e-learning course for Health Professionals will soon be available - they can receive updates by contacting info@sudep.org

SUDEP Action
Making every epilepsy death count

SUDEP Action
SCOTLAND

SUDEP Action & SUDEP Action Scotland are the working names of Epilepsy Bereaved.
Registered charity 1050459 (England & Wales), SC045208 (Scotland).
