### **MPs pledge their support at Westminster Event**

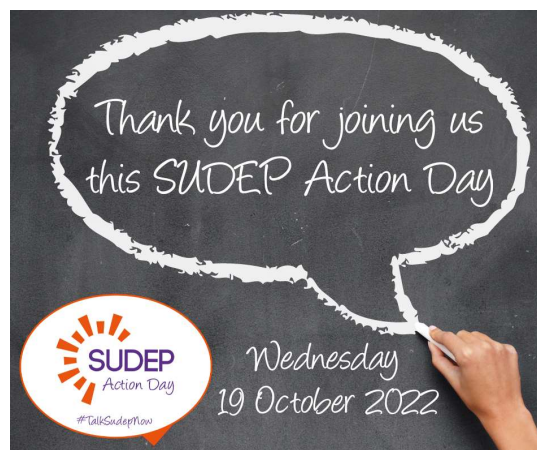

SUDEP Action's Parliamentary event at Portcullis House, Westminster, brought together policymakers and bereaved families on SUDEP Action Day - October 19th.

### **Thank you for supporting SUDEP Action Day 2022**

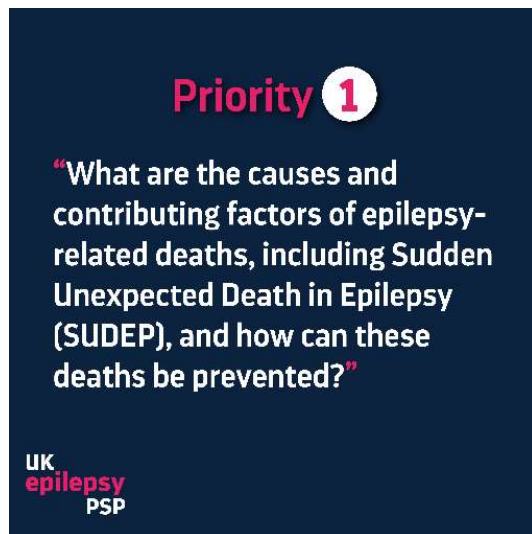

Thank you to everyone who supported SUDEP Action Day this year, on 19 October. Our #TalkSudepNow campaign was a great success and your involvement was crucial in helping us raise greater awareness of SUDEP and epilepsy risks.

#### **Read more:**

**'The term SUDEP just has to be better known'**

'I would like more medical people to acknowledge the risks'

### SUDEP is now the number one epilepsy research priority

Research into the causes of epilepsy-related deaths, including SUDEP, was named the number one priority by the UK Epilepsy Priority Setting Partnership (PSP). Jane Hanna, SUDEP Action CEO, welcomed this announcement, saying: "This recognition by the PSP of how research can better understand, explore and tackle epilepsy deaths, including SUDEP, is a positive step towards saving more lives."

Our My Life with Epilepsy project is going well! We're producing SUDEP & Epilepsy risk leaflets for people with a learning disability / their family & carers & filming new risk videos.

Next we'll be working with our experts by experience to see how we can make EpSMon even better!
